

C. BABY SAFETY

MODULE 8

Making your baby's world as safe as possible is part of being a parent.

Watch your baby so that he or she does not get hurt. Never leave an infant alone - not even for one second - except in a safe crib.

All the items your baby uses must be safe and well made. These items are: strollers, high chairs, clothing, toys and pacifiers.

Consult these links for more information about child safety.
