

## **c. Furniture**

### MODULE 8

In the beginning, you will need a little furniture. Your baby will need an approved cradle, crib or bassinette to sleep in. You will need an area for the baby's clothes such as a bureau or even a box. Rocking chairs are not necessary, but many parents and babies enjoy them.

Each piece of furniture you purchase for your baby must be clean, safe, and well made. Old furniture is not always safe.
